An index (plural: usually indexes, more rarely indices; see below) is a list of words or phrases ('headings') and associated pointers ('locators') to where useful material relating to that heading can be found in a document or collection of documents. Examples are an index in the back matter of a book and an index that serves as a library catalog.. In a traditional back-of-the-book index, the ...

PeerJ's 2016 Impact Factor is 2.2 (see Journal Citation Reports).. Whilst we appreciate the importance still placed on the Impact Factor by many elements of the academic community, we believe that individual research articles are best assessed on their own merits, rather than on an aggregate citation count for the journal in which the work is published.
