1. Introduction. Despite significant attention given to animal diseases in the last half-century, our understanding of disease processes, and how to manage them at the livestock-wildlife interface, remains limited (Rhyan and Spraker, 2010). The increasing role of wildlife in the emergence of livestock and human diseases is due to multiple changes occurring within wildlife, livestock, and ...

Innovation can be simply defined as a "new idea, creative thoughts, new imaginations in form of device or method". However, innovation is often also viewed as the application of better solutions that meet new requirements, unarticulated needs, or existing market needs. Such innovation takes place through the provision of more-effective products, processes, services, technologies, or business ...
