An engineering information system based on enterprise GIS technology stream-lines activities from field data collection to project management.

GIS Solutions for Civil Engineering - Esri

An intelligent transportation system (ITS) is an advanced application which, without embodying intelligence as such, aims to provide innovative services relating to different modes of transport and traffic management and enable users to be better informed and make safer, more coordinated, and 'smarter' use of transport networks.. Although ITS may refer to all modes of transport, the directive ...

Intelligent transportation system - Wikipedia

Intelligent design (ID) is a pseudoscientific argument for the existence of God, presented by its proponents as "an evidence-based scientific theory about life's origins". Proponents claim that "certain features of the universe and of living things are best explained by an intelligent cause, not an undirected process such as natural selection." ID is a form of creationism that lacks empirical ...

Intelligent design - Wikipedia

The Engineering Laboratory promotes U.S. innovation and industrial competitiveness by advancing measurement science, standards, and technology for engineered systems in ways that enhance economic security and improve quality of life.

Artificial Intelligence (AI) techniques are now being used by the practicing engineer to solve a whole range of hitherto intractable problems. This journal provides an international forum for rapid publication of work describing the practical application of AI methods in all branches of engineering.. Focal points of the journal include, but are not limited to innovative applications of:

Published data from 2005–2016 regarding intelligent manufacturing have been gathered from the Scopus database (), which shows a steady increase in papers on this topic. Fig. 1(a) shows the published documents on intelligent manufacturing from 2005 to 2016. From 2005 to 2006, the number of articles increased sharply, from around 100 to 150; from 2007 to 2014, the number then increased at a ...

Big Data is expected to have a large impact on Smart Farming and involves the whole supply chain. Smart sensors and devices produce big amounts of data that provide unprecedented decision-making capabilities.

Big Data in Smart Farming – A review - ScienceDirect

Computer use is an integral part of the Civil Engineering curriculum. From required courses in computer programming and numerical analysis to subsequent use and development of Civil Engineering programs, students experience the use of computers as a planning, analysis, design, and managerial tools.
