Worldwide IP Solutions - International Patents, Patents

technology spillovers in middle- and low-income countries. KEY WORDS: International technology diffusion, trade, patents, productivity 1. Introduction International technology diffusion is a widely studied topic in the economic literature.¹ While much disagreement remains, especially on measurement, researchers do seem to agree on two points.

Trade, Patents and International Technology Diffusion

which patent protection matters to research and development (R&D) and to international patenting and, thus, to productivity growth. International patenting activity is an important source of the international diffusion of technology: it involves not only the diffusion of new products and processes but also "knowledge spillovers" from the

Impact of the International Patent System on Productivity

The Office of International Patent Cooperation (OIPC) was established in 2014 to support and improve the international patent system. The office leads efforts to assist U.S. inventors and businesses in protecting their patent rights worldwide and supports the global innovation community.
