A loss ratio is a ratio of losses to gains, used normally in a financial context. It is the opposite of the gross profit ratio (commonly known as the gross profit margin).. For insurance, the loss ratio is the ratio of total losses incurred (paid and reserved) in claims plus adjustment expenses divided by the total premiums earned. For example, if an insurance company pays \$60 in claims for ...

Loss ratio - Wikipedia

The actuarial credentialing and exam process usually requires passing a rigorous series of professional examinations, most often taking several years in total, before one can become recognized as a credentialed actuary. In some countries, such as Denmark, most study takes place in a university setting. In others, such as the U.S., most study takes place during employment through a series of ...

Actuarial credentialing and exams - Wikipedia

Civil Division. The Civil Division of the Department of Law provides legal counsel to the executive branch in all civil actions. The division defends and prosecutes civil litigation to which the state is a party; handles legal matters for and provides legal advice to the governor, executive branch agencies, and - upon request - the legislative and judicial branches; reviews regulations ...

Civil Division - Alaska Department of Law

The actuary's level of effort in understanding and evaluating a model should be consistent with the project's objective and the model output's materiality to the results of the actuarial analysis.

ASOP No. 38 - Catastrophe Modeling (for All Practice Areas)

Workers' compensation premium in Florida begins with manual rating. A single price or rate does not exist. Under manual rating, all employees are grouped according to their job duties and classification.
