Islamic architecture is one of the world's most celebrated building traditions. Known for its minarets, domes, vaulting, arches, and decorative work (each of which is often found in the Islamic mosque), this distinctive approach has been popular in the Muslim world since the 7th century.

The Distinctive and Dazzling Elements of Islamic Architecture

Islamic architecture is an embodiment of multiculturalism, manifest in the most exotic framework. The city of Delhi has been studied as a significant case in this regard, where Islamic monuments, gardens and town planning are replete with blending cultures, thus making Indo-Islamic art forms unique by themselves.
