In linguistics, coordination is a frequently occurring complex syntactic structure that links together two or more elements, known as conjuncts or conjoins. The presence of coordination is often signaled by the appearance of a coordinator (coordinating conjunction), e.g. and, or, but (in English). The totality of coordinator(s) and conjuncts forming an instance of coordination is called a ...

Begging the question is a logical fallacy that occurs when an argument's premises assume the truth of the conclusion, instead of supporting it. It is a type of circular reasoning and an informal fallacy: an argument that requires that the desired conclusion be true. This often occurs in an indirect way such that the fallacy's presence is hidden, or at least not easily apparent.

Big Data: A Twenty-First Century Arms Race - Free download as PDF File (.pdf), Text File (.txt) or read online for free. We are living in a world awash in data. Accelerated interconnectivity, driven by the proliferation of internet-connected devices, has led to an explosion of data—big data. A race is now underway to develop new technologies and implement innovative methods that can handle ...

If you have money, you probably think about it a fair bit. And if you don't have money, you might think about it even more. In this course, we will think about money a lot. In particular, we will examine some central philosophical issues surrounding money and its place in a well-lived life, including how much is enough, whether or how money can make us happy, the ethics of gambling and risk ...

Iâ€™ve been developing code in SAP HANA for nearly 3 years now, and at the end of 2013, there is now a huge influx of developers. This is good, because it means that mass adoption is here. But it also means that we see a lot of the same mistakes being made. I did some analysis of the questions asked ...
